

EVV Service Bill Codes Table Version 9.6 (STAR Health Updates) Publishing Nov. 1

The EVV Service Bill Codes Table provides current billing codes and details for EVV-relevant services in Long-Term Care, Acute Care and Managed Care programs. A discrepancy was identified in the EVV Service Bill Codes Table for certain STAR Health service billing combinations, which prevented the correct payment of the EVV services. HHSC updated the EVV Service Bill Codes Table to reflect the service billing combinations used according to STAR Health billing guidelines.

HHSC will publish the EVV Service Bill Codes Table Version 9.6 to the [EVV webpage](#) by Nov. 1.
