COVID-19: Provider Enrollment Revalidation Extensions to End on February 28, 2022 – Texas Medicaid

Due dates end

Effective February 28, 2022, the [Texas Health and Human Services Commission \(HHSC\)](#) is ending the flexibility that extended revalidation dates due to the COVID-19 public health emergency (PHE).

What actions are required by providers?

Providers are strongly encouraged to submit revalidation applications immediately. The ability to submit a revalidation application is currently open to all providers who wish to begin the process.

Providers with original revalidation dates between **March 1, 2020 and February 28, 2022**, will be given a new enrollment end-date based on the provider's original due date and screen risk category.

New revalidation dates will be staggered at the end of the public health emergency to avoid enrollment delays. TMHP will notify providers in January 2022 of their new enrollment end date, and again 120-days prior to their new enrollment end date.
